

## Sophos Cloud

Quickly and easily secure all your Windows, Mac and mobile devices through the cloud

Sophos Cloud is the only integrated security solution for Windows, Mac and mobile devices. With a simple, intuitive user experience, Sophos Cloud is effortless to deploy, manage and maintain. The management console is hosted in the cloud by Sophos, and there is no server to install. You'll be up and running in minutes.

### Highlights

- ▶ Secure Windows, Mac and mobile devices with a single integrated solution
- ▶ User-based management, reporting and licensing
- ▶ Built-in web security effectively blocks web-borne threats
- ▶ Enforce safe and productive web usage with Web Control
- ▶ No server required. Cloud-based means effortless deployment, maintenance free and scalable
- ▶ Protects users and enforce policy across devices, on or off the network
- ▶ Automatic software upgrades, threat updates and real-time policy refresh

### Simply effective protection

Sophos Cloud is based on the same proven technology that protects over 100 million devices worldwide. Security policies follow the user across devices, platforms and locations. One integrated, lightweight protection agent stops malware using multiple layers of protection, including web-exploit detection, sandboxing, HIPS, buffer-overflow protection and more. And it keeps your protection current using automatic updates and real-time lookups of suspicious files over any Internet connection.

### Enable mobility

Mobile device management (MDM) in Sophos Cloud lets your users stay productive on the move, while keeping your corporate data secure. And with unified management, you get clear visibility on all devices and policies from a single, unified console.

### Web security for safe browsing

The web is one of the most common infection vectors for end-user devices. Sophos Cloud protects your users with built-in web security, enabled by default. Automatically prevent access to malicious and infected websites while detecting and blocking exploit codes in JavaScript, PDFs and Flash objects.

### Promote safe and productive web usage with Web Control

Web Control makes it easy to enforce safe and productive web usage, whether your users are at work, at home or on the road. The predefined policy let's you easily set policies to address security and compliance requirements. You can also set time-based policy to limit non-business related browsing during business hours. Effortlessly enforce web policy at the endpoint: no need for proxy servers, VPNs or application-specific configuration.

*"Sophos Cloud is a perfect fit for me, as a one-person IT shop. It's the easiest antivirus solution I've ever deployed."*

Joel Rohne, IT/GIS Director, Worth County, Iowa

## Choose the package that best suits your needs

Sophos Cloud provides unified security from a single management console. At the same time, we offer the packaging flexibility for customers to choose the features and function that best fits your business needs.

	Sophos Cloud Endpoint Protection Standard	Sophos Cloud Endpoint Protection Advanced	Sophos Cloud Mobile Control Standard	Sophos Cloud Enduser Protection Bundle
Anti-malware	✓	✓	-	✓
Live Protection	✓	✓	-	✓
HIPS	✓	✓	-	✓
Web Security	✓	✓	-	✓
Device Control	-	✓	-	✓
Web Control	-	✓	-	✓
Active Directory Sync	-	✓	✓	✓
Mobile Control (MDM for iOS)	-	-	✓	✓
Remote Locate, Lock and Wipe Devices	-	-	✓	✓
Compliance Enforcement	-	-	✓	✓
Controlled Access to Corporate Accounts	-	-	✓	✓
Sophos Cloud Management Console	✓	✓	✓	✓
Supported Platforms	Windows, Mac	Windows, Mac	iOS	Windows, Mac, iOS

### Effortless to deploy, simple to manage and maintain

- ▶ Automatic client installation with built-in removal tool that removes your existing antivirus agents
- ▶ Sync with Active Directory for quick deployment and ongoing user and group management
- ▶ Gain clear visibility into all your users, their devices and their protection status
- ▶ Create security policy once and deploy it across multiple groups and platforms
- ▶ Deploy user-based policies that follow the users and their devices
- ▶ Get started immediately, with no training required
- ▶ Built-in best practices provide effective security settings by default

### Reduce attack surface with Device Control

Monitor and control the use of removable media, USB drives and wireless networks. Set the policy once and it automatically deploys across all platforms.

### Unified Cloud management

Sophos Cloud lets you manage security simply and effectively using an integrated cloud-based management console. The dashboard gives you clear visibility with prioritized alerts and actionable information.
